

Security you expect from our dependable health and safety consultancy, with the flexibility you need as your business changes.

An agile health and safety consultancy service that's as flexible as your business.

As your business changes and grows, we change with you by providing a fresh and flexible way of making sure your people are always being looked after. We will help you manage your health, safety and wellbeing for employees, whether they are working from home or in the office. We help your people to be happier in their work, enabling you to become a more progressive and understanding employer.

We provide support for the changing needs of employee wellbeing, from the health and safety of the physical working environment through to the emotional and mental wellbeing of teams across varied and changing locations. By offering comprehensive and fully flexible care, your business will be able to attract and retain more talent, with happier teams who feel well looked after.

Service Capabilities

- **Peace of mind** that you're compliant with all the necessary guidance and legislation.
- Assurance that your business is doing all it can for the **welfare, physical and mental health** of your teams.
- No long-term contractual agreements: **support that is flexible** as your business grows and changes.
- Discounts on our **training** and events.

Agile+ changes as your business changes, adapting to your needs as your business grows and evolves.

What's included with Agile+

Evaluation

We begin with an evaluation of your business, its risk profile and the uncovering of any areas of non-compliance or improvement that need attention.

Policies

We make sure you've got the right policies and procedures in place, with supporting evidence to make sure you're always covered.

Training

We help the executive team understand their health and safety accountabilities, provide accredited, non-accredited and bespoke health and safety leadership training and general health and safety courses, such as fire marshal and first aid.

Advice

Legislation and guidance changes regularly. We'll advise on what your responsibilities are as an employer so you're always in the know.

Implementation

Installation and maintenance of effective health and safety management systems and processes, partnered with leading software providers to manage accident reporting, analysis, risk assessments and more.

Assessment

We will carry out fire and premises risk assessments and implement fire policy for your office buildings.
